AGCO POWER STUDENT EVENT

AGCO Power organizes the traditional AGCO Power student event on Thursday 22.3.2018. In the event you can talk to the experts of AGCO Power about their careers and backgrounds, the future visions of our company and what is it like to work in the world class engine factory. We will offer a short company introduction, possibility to chat with our crew in an informal way and of course some snacks and beverages.

This time we invite the participants to visit our factory in Linnavuori, Nokia. We will have a visit in the manufacturing area and after that we'll continue the evening at our legendary Sauna. We will arrange the transportation from TUT to Linnavuori and back to TUT. The transportation will leave TUT on 22.3.2018 at 14:30 and the return transportation approx. at 21:00.

If you are interested to participate, visit our Yrityspäivä job fair stand at TUT on Thursday 8.2.2018 and leave an open application for the event. We will select approx. 15 participants to the event in March. Include in the application at least the following information:

- Name and email address
- Are you a student in TUT or in TAMK
- Field of study/major/minor (if you already know them)
- Year of studies/When your studies started
- Why we would select you to participate the event? You can for example tell, why you are interested in AGCO Power or why we should be interested in you.

If for some reason you cannot leave your application at our Yrityspäivä job fair stand at TUT, you can send your application by Sunday 11.2. to [anne-mari.henttonen\(at\)agcocorp.com](mailto:anne-mari.henttonen(at)agcocorp.com). Unfortunately we cannot answer to questions via email or phone.
We will contact you personally, if you get selected.
